Questionnaire

The main aim of this questionnaire is to analyse the proposed IP-MED study program. This questionnaire will be used to collect data and to assess the current situation at the ENPI South participating institutions : human resources & training needs, infrastructure, curricula and course contents, ECTS allocation, local labour market needs, etc. All partners will use this questionnaire drafted by us to collect the necessary data within their institutions, via personal interviews, questionnaires, etc. The due data for collection of all this data is 30/04/2014.

1. Name of the Individual

2. Name of the Institution

3. IP rights acknowledged by national law

4. Please indicate the International IP Treaties to which the country is a party

5. General outlook of the Institution towards IP:
 - a- Is the subject of IP included in any degree programme of the institution?
Yes/ No
If yes: What degree?
If no: Is there any institutional plan for inclusion?
 - b- Is IP part of the mission of the institution?
Yes/ No
If no: Is there any institutional plan for inclusion?
